ADMINISTRATION REPORT

OF THE

SAVANUR STATE

FOR THE YEAR

1919—20. + 1920-21

(Official use only)

134979

PRINTED BY Yashwant Bhaskar Jathar, B. A., LL. B.,
AT THE
KARNATAK PRINTING WORKS,
DHARWAR.

No 1763 of 1920.

Huzur Office, Savanur.

Dated, 21st June 1920.

From,

CAPTAIN NAWAB ABDUL MAJID KHAN,

Dilair Jung Bahadur,

NAWAB OF SAVANUR.

To,

A. E. T Emanuel, Esquire, M. A., I. C. S.,

Political Agent, Dharwar.

My friend,

I have the honour to present the annual Administration Report of the Savanur State for the year ending 31st March 1920.

2. The rayats were hard hit last year on account of famine but during the year, their condition improved and the out-turn of crops was better.

Unfortunately just before the picking of cotton, there was heavy rain which caused great loss to the rayats. Had it not been for this, their condition would have been very favourable during the year.

3. It is a matter of satisfaction to note that more waste lands were taken up for cultivation during the year.

Inspite of the rayats having had to pay the suspended assessments of Land-Revenue, there were only two forfeitures.

Every effort was made to relieve the distress of the rayats in the Malnad villages by advancing them takavi and this was done by the Divan personally when encamped in those villages.

4. The working of the Police was not as satisfactory as in the last year. This was mainly due to the difficulty in obtaining an efficient hand as Sub-Inspector. I hope, that, before long, we will be able to secure a smart and steady officer.

The question of supply of Martini Henry Rifles to the State still remains unsettled and I have to request you to kindly move Government to allow the State Police to be armed with Martini Henry Rifles. Great inconvenience is being felt and in this connection, I would draw your kind attention to para 13 of the Administration Report.

5. Civil and Criminal justice calls for no special remarks.

6. A large sum of money was spent on Public Works but the State sold several buildings which were used as offices and the proceeds thereof, with a little addition, were utilised on the old Mahal Works referred to in the Report.

All offices will be located in the Old Mahal shortly. Thus the State has been able to finish the construction of the building without having to spend a large sum of money over it, as its construction was partly completed, during the time of the late Nawab Saheb, at a great cost.

7. As regards my recommendation to raise Sardar Abdul Mahabub-Allikhan to a first class Sardar-Ship, I again request you to kindly move Government to consider his case. I will make a separate reference to you when I return the correspondence regarding this matter to you shortly.

8. I am glad to mention here that the present Divan has worked efficiently and to my entire satisfaction.

9. Regarding other details of Administration, full information is given by the Divan in his Report.

10. In conclusion, I have once more to thank you sincerely for the kind and courteous manner with which you treated me whenever I had the pleasure of meeting you.

I very much regret that I was not present at the time of your visit to Savanur but I sincerely hope that I may have the pleasure of personally welcoming you to Savanur soon.

Yours sincerely,

Captain, Nawab Abdul Majid Khan,

Dilair Jung Bahadur,

Nawab of Savanur.

No. 803 of 1920.

DIVAN'S OFFICE, SAVANUR,

Dated 20th June 1920.

From,

Ramarao Shrinivasrao Kulkarni Esq.,

Divan of Savanur State.

To

Meherban Capt. Nawab Saheb Delair Jung Bahadur,

SAVANUR STATE.

SIR,

I have the honour to submit the annual Administration report of the Savanur State for the year ending 31st March 1920.

CHAPTER 1.

General and Political.

2. The area of the State is 70 square miles. The population according to the census of 1911, is 17,909. The average gross revenue of the State based on the past five years is Rs. 1,34,123–4–5.

3. The State pays no tribute of any kind either to the British Government or to any other native State.

4. The Nawab Sahib's full name and title are "**Captain Meberban Abdul Majid Khan Saheb Farjand Meherban Nawab Abdul Tabrezkhan Saheb Delair Jung Bahadur,**" Nawab of Savanur. The Nawab Sahib is 29 years old and belongs to the Miyana tribe of pathans. He continued to be Honorary Aide-de-Camp to His Excellency the Governor of Bombay.

5. The Nawab Sahib has two childern-daughter Shahanoor Jahan Begum aged five and son Abdul Hamid Khan Sahib aged one. Meherban Begum Sahiba, the young princess and the prince and the three sisters of the Nawab Sahib continued to enjoy good health during the year.

6. The Nawab Sahib was present in Savanur during the greater part of the year. He went on tour in Northern India during the months of November and December 1919 and visited Agra, Benares, Calcutta and other important places. While returning from his tour he had the honour of visiting His Excellency Lord Willingdon, the Governor of Madras in Madras. The Political Agent, Dharwar was kind enough to pay a visit to Savanur in January last and to visit the schools, Dispensary and Jail then.

8. During the year the terrible war which lasted for five years ended in complete success to the British Arms and allies and an armistice was signed by the

Germans on the 28th June. The Nawab Sahib and the State subjects received the news with the greatest delight. Thanksgiving prayers were offered by all communities in their respective temples and masjids. They again gathered in a public meeting under the Presidentship of the Nawab Sahib and prayed for long life to their Gracious Majesties, the King Emperor and the Queen Empress and great prosperity and glory to the British Empire. Some time after the war was over, news arrived that Ameer of Afganisthan was trying to disturb the peace of some of His Majety's territories on the frontier. It was received with feelings of great indignation and the Nawab Sahib in token of his unswerving devotion to the paramount power placed his services at the disposal of the British Government, a second time.

There are no movements in the State regarding the question of Khilafat.

The summary of the terms of the Turkish peace treaty together with Viceregal message on the subject has been duly published in the State through some leading mohamedan gentlemen. Changes in the personnel of high officials in the State are given in appendix I.

CHAPTER II.

Administation of the lands.

9. I continued to do the jamabandi as usual. The area under cultivation during the year was 19,245 acres and 9 gunthas and the cultivable area was 39,755 acres and 12 gunthas and the cultivable waste land was 510 acres and 3 gunthas as against 550 acres, 7 gunthas last year. 40 acres and four gunthas of waste land were thus brought under cultivation during the year. The percentage of cultivable waste land to that under cultivation was. 0·90 against 1·02.

Some lands in the village Yekkikop which lay fallow for the last many years were given for cultivation on concession rates *i. e.* without assessment for the first two years and on half payment of the assessment for the next two years and then on payment of full assessment, during the year under report, as per orders of the Nawab Sahib.

The land revenue demand for the year amounted to Rs. 1,12,843–12–0 including the suspensions granted during the last year out of which collection of Rs. 10,594–7–9 remained as arrears at the end of the year.

The large amount of arrears is partly due to rayats having had to pay the suspended amounts of the last year together with the revenue of the year under report and partly to the rayats in malnad villages having suffered from untimely and unseasonable rains. Large amount of arrears remained in rabi villages also, as cotton picking was late. Hence the rayats could not dipose of their cotton in time. Greater part of the arrears has since been recovered.

280 notices and 2 forfeitures were resorted to as against 152 notices and three forfeitures last year for the recovery of arrears.

There were no alienations during the year.

No new boundary disputes have arisen during the year.

A Tagai of Rs. 4490 Viz, 1300 under the Land Improvement loans Act and Rs. 3190 under the Agriculturists' Loans Act was given during the year. The rayats in malnad villages being hard hit on account of draught of last year were granted tagai freely for seeds and fodder to a greater extent. This relieved them to some extent and enabled them to cultivate their lands. In the absence of such advances the lands would have lain fallow.

The following table shows the demand and the recovery of tagai under the Land Improvement Loans Act and Agriculturists' Loans Act during the year.

Outstanding balance last year.	Balance.	Due for recovery during the year.	Total recoverable.	Recovered during the year.	Balance.
Land Improvement loans act	40-0-0	1133-5-4	1173-5-4	1148-5-4	25
Agriculturists' Loans act.....	....	150-0-0	150-0-0	150-0-0	....

Owing to some malnad lands remaining fallow on account of excessive early rains the Nawab Sahib was pleased enough to grant suspensions of tagai instal ments due in May last from the rayats of these villages.

CHAPTER III.

Protection and Legislation.

10. There was no change during the year in the list of laws and regulations in force in the State, kindly vide appendix II.

Military Force.

11. There is no military force in the State, vide kindly appendix III.

Police.

12. Appendix IV gives details as regards strength, cost, rewards and punishment of the Police Force in the State, from which it will be seen that there were 39 constables, 5 Naiks, 3 Havaldars, 1 Jamadar and 1 Sub-Inspector during the year.

Mr. Imam Mohadinkhan refrreed to, in the last report continued as Sub-Inspector during the year and one Shidramaya Kudal who served once in the Dharwar Police as both Sub-Inspector and Jamadar was appointed on Rs. 35 as Jamadar in the State. He was tried for six months and being found unreliable and therefore unfit, his services were dispensed with. In his place one Keshav Khando of Belgaum District has since been appointed as Jamadar. He too has the experience of the Police Department having previously served as Sub-Inspector in the Belgaum Police.

Mr. Imam Mohadinkhan who had put in more than 30 years' service and who was under extension, was allowed to retire in April last and the Jamadar Mr. Keshav Khando has been appointed as Sub-Inspector as a temporary measure.

A special class has been opened under the orders of the Nawab Sahib to train the head constables in laws, rules and regulations to make them efficient for higher grade. The class is in charge of a senior pleader who is also State Public Prosecutor.

The Police Force continued to get grain compensation as in last year.

13. As mentioned in the last report the Police are armed with only 14 old muzzle loaders and 6 Martini Henery rifles. As moved in my last report nothing appears to have still been done to allow the State to replace the five guns which were found unserviceable and therefore disposed of so long ago as in 1905. The state enjoyed the right of using 25 guns for a number of years before 1905. It would appear reasonable that the present police force should also be armed with the same number of guns. It is hoped that this matter will duly be considered as early as possible. The police are required to guard the treasury, the lock-up, the residence of the Nawab Sahib and the public offices besides the property of the state subjects. It will therefore be seen that the present number of guns is insufficient for the purpose of all these guard duties.

The present muzzle loaders being useless during an emergency, it is necessary for prompt handling and effective use that more Martini Henry rifles than at present should be supplied for guard duties.

14. There were no serious crimes during the year. The percentage of convictions and recovery of stolen properties was 88 and 56·1 as against 85·9 and 100 last year.

There was no increase in the number of crimes during the year, the number being 17.

During the year such bad charcters as do not by birth belong to the criminal classes were brought under criminal tribes act with a view to enable the police to control their movements properly.

The ratio of police to population and area is one police for a population of 366 souls and 1·4 square miles respectively. Appendices V, VI and VII will furnish other particulars regarding the working of the police which when summarised would appear to be satisfactory.

The Police were regularly coached in police laws and regulations. In every orderly room presided over by the Nawab Sahib, the police were tested in their knowledge of them. Recently the drill instructor has been sent to the police headquarters, Dharwar, for being trained in the recent changes in the police drill.

16. Arrangements are newly made to train each police in detection and investigation of crimes. The general out-turn of the police was also properly attendeded to as before. They were put into musketry practice as last year. They were not only rewarded with money and good service tickets whenever any of them detected crimes but to encourage them still more annual rewards were given to them at the end of the year. As a sort of further encouragement to them, loans

were advanced to those who demanded on a nominal interest and in cases of men who were found reliable and working satisfactorily, without interest even. Scholarships are freely given to their childern going to schools. All these facilities and encouragements are specially provided with a view to attract a better class of recruits.

17. No bad characters were dealt with under chapter VIII of the criminal procedure code.

18. Property worth Rs. 200 was destroyed accidentally by fire.

19. There were no suicides but there were seven accidental deaths reported during the year.

20. There was no change in the number of watandar and stipendiery police patils during the year, the number being 23 and 2 respectively. They assist the district police in keeping order in the villages and also in the prevention and detection of crimes.

Criminal Justice.

21. As in last year the Nawab Sahib continued to exercise the powers of a sessions judge, I, as District Magistrate, the Sub-Judge as First Class Magistrate and the Head Karkun as third class Magistrate. Appeals from the court of the third class Magistrate are heard by the District Magistrate and from those of the District Magistrate and First Class Magistrate, by the Nawab Sahib as sessions judge.

Appendix VIII gives details of cases heard and disposed of by each of the three courts during the year under report and as well as in the previous year.

Two persons were committed for trial to the Court of Sessions by the First Class Magistrate during the year of whom one was convicted and the other was acquitted or discharged.

Out of fourteen persons that came for trial before the District Magistrate 10 were convicted and four were acquitted or discharged during the year.

The First Class Magistrate tried 95 persons of whom 25 were convicted, two were commited to the court of sessions and 67 were acquitted or discharged

Fifty persons were tried by the Magistrate, third class. Of these 35 were convicted and the remaining were acquitted or discharged.

22. There were no appeals either against the decisions of the District Magistrate and First Class Magistrate or against those of the third class Magistrate.

There was a revision application against the decision of the First Class Magistrate to the court of the District Magistrate under section 435 C. P. C. which was refused.

23. The District Magistrate heard and decided a dispute about a landed property under section 145 C. P. C.

Civil Justice.

24. The number of civil courts remained the same as in the last year viz. the High Court, the District Court and the court of the First Class Sub-judge. The powers of the High Court were as in last year exercised by the Nawab Sahib and those of the District Judge by me.

The details of original work and the disposal of applications for execution of decrees will be seen from appendices X and XI.

There were 9 miscellaneous applications on the file of the First class Sub-judge including the previous balance of one, of which 8 were disposed of during the year.

The average duration of suits and applications for execution of decrees was three months and 16 days and 5 months and 8 days respectively, as against 3 months and 9 days and 5 months and 26 days last year.

There were three applications under the Guardian and Wards Act, disposed of by the District Court during the year.

Two applications under the Bombay Act VIII of 1827 were also filed and disposed of during the year.

25. Appendix XII gives details as regards work done by appellate courts.

The average duration of appeals disposed of by the High court and the District court are respectively 4 months and 5 days and four months and fourteen days as against 6 months and 7½ days and five months and 22½ days last year.

26. I continued to exercise the powers under the Mamlatdar's courts Act, There was one application under the act which was disposed of. 25 assistance suits under the Land Revenue Code were filed and disposed of by me during the year as against 12 last year. I decided 146 heirship enquiries during the year as against 24 last year. Demise of several khatedars was not reported by the village officers of the villages for some years in the past. A pressure was brought to bear upon village officers during the year and the result was, a great number of heirship enqiry cases came on, for enquiry and was disposed of. It will thus be seen that the working of the civil courts was on the whole satisfactory.

Extradition.

27. As reported last year processes of all kinds civil, revenue, and criminal continued to be served reciprocally by the British districts and other native states on the one hand and the Savanur state on the other.

During the year only one person was extradited from Mundgod District Canara to the state who was charged under section 307 I. P. C. None was surrendered by the state either to the British Government or to any other native states.

Prison.

28. Appsndix XIII furnishes details as regards the number of prisons, convicts aud undertrials admitted into the Savanur jail and lock-ups during the year.

The jail building is kept in good condition being provided with ceiling and Manglore tiled roofing during the year.

The Head karkun continued to be the superintendent and a karkun of my office acted as jailor during the year.

Prisoners were chiefly employed in digging the garden of the new mahal at Savanur. The total cost of maintaining the prisoners amounted to Rs. 663–12–10. The total cost of dietary charges per head per day was Rs. 0–4–1.

Rations and clothing were provided according to the jail manual.

Clemency was extended to 2 prisoners at the joyous occasion of the armistice signed by the Germans.

The conduct and the health of the prisoners were good during the year. There was no casualty among them. The jail committee held three quarterly meetings.

Registration.

29. The Head karkun and the Divan continued as Sub-Registrar and District Registrar respectively during the year.

Appendix XIV gives deatils of documents registered and XV of receipts and expenditure of the Registration department. The fees realized were Rs. 954–15–6 and expenditure was Rs. 60 the net profit being Rs. 894–15–6.

Municipal Adminstration.

30. The only Municipality is for the town of Savanur. As before it is represented by eight nominated and four elected Councillors. During the year the Nawab Sahib and I continued to be President and Vice-President respectively.

The Municipality held four quarterly meetings and three special general meetings. The average attendence was 7·5 and 8 respectively.

The actual receipts during the year were Rs. 10,940–9–9 and the expenditure was Rs. 8,469–0–3, as shown in Appendix XVI.

The main sources of income are house and wheel taxes and market rents.

The year closed with a balance of Rs. 14,548–2–2.

The mutton market under construction is not yet finished during the year.

Some roads were repaired and metalled at a cost of Rs. 600.

All Municipal buildings were repaired during the year.

In the Municipality sanitation is one of the chief points which have received the special attention of the Nawab Sahib.

The medical officer and one of the compounders have been specially deputed to look after the sanitary arrangements and to advise the Sanitary Inspector from time to time. They are taking rounds in the town and looking after the cleanliness. During the time when influenza and plague broke out at Savanur during the year, they were asked to visit the houses of the people without any distinction in order to give medical relief. This relieved the poor people to a great extent and also prevented the prevalence of diseases.

The finances of the Municipality are in a sound position.

CHAPTER IV.

Production, Distribution Weather & Crops.

31. Appendix 'XVII. gives information regarding the rainfall. The total rainfall during the year was 28·43 inches as against 19·75 inches of last year.

Though the total rainfall was above average as shown in the appendix it was not timely and equally distributed. It was untimely also in Malnad villages. The crops therefore suffered to some extent this year also.

The anna valuation of the crops was:—

Jowari 12 annas, Cotton 8 annas, Wheat 4 annas, Gram 4 annas, Tur 2 annas, Kulthi 6 annas.

The season on the whole was not bad.

Wages, labour, & prices of food grains.

Appendix XVIII will show the prices of food grains.

The prices remained almost the same as in the last year.

There was large demand for labour this year also and the wages for unskilled labour were 8 to 12 annas for men and 6 annas for women and 4 annas for children and those for skilled labour were Re. 1. Constructions of several public buildings provided the labourers with more than sufficient work. Labourers outside had to be induced for the purpose.

Forest.

32. There is no change in the number of forest during the year, there being only one forest at Mulkeri. The income from the Mulkeri forest was Rs. 2,174–4–10 and the expenditure was 82 rupees. Arrangements are made to plant in the forest with teak and matti plants as it is being cleared every year. The income chiefly consists of the proceeds of the wood sold.

I held the charge of forest officer during the year.

Trade and Manufacture.

33. The chief exports of the state are as before cotton, pan-leaves, butter, and imports consist of almost all the necessaries of life.

34. The ginning and the pressing factory continued to be worked by Sardar Mahaboob Alli Khan Sahib during the year. 2642 Nags of cotton were ginned and 2265 bales were pressed during the year as against 2343 Nags of cotton and 2057 bales respectively of last year. The purchasers in the market were Messers. Ralli Bros. Gokak Mills, Hubli Mills, Patel Bros, Japan Trading Co., and Mitsui Bhusan Kaisa. The last two cos. purchased sawgin cotton at Gudgeri Market and brought the same for pressing to the Savanur press.

The cotton business of Sardar Mahaboob Alli Khan, as is apparent, was better during the year than last year.

35. As reported last year country blankets and coarse cloth are the main manufactures of the state.

As regards weaving industry refered to in my last report, silk and cotton yarn are purchased and issued by the state to the weavers of Savanur, according to their requirements at cost price. The weavers of Savanur had, before this arrangement, taken to other business for want of funds. The help which they receive from the State has encouraged them to return to their own profession by which more number of looms are now brought in working order. Some outsiders have also settled here lately with their looms. They have been given similar help from the state as in the case of local weavers. The result is that during the year they have been able to weave fine and more number of sadis.

Arrangements are now made to purchase silk and cotton yarn from Bombay and Banglore direct by the State required by the weavers. I had gone to Bombay under instructions from the Nawab-sahib to make the said arrangements, in January last. Separate accounts are kept to show the details of yarn issued to various weavers.

The introduction of improved methods of weaving amongst the weavers is also under contemplation of the Nawab Sahib.

Public Works Department.

36. Appendix XIX gives details regarding the various expenditure on original works, special and current repairs. During the year special work of converting the old Mahal to suit several offices of the state was undertaken.

The late Nawab Meherban Abdul Tabrezkhan sahib, the father of the present Nawab Sahib undertook the repairs of the old Mahal to make it a suitable habitation for the chiefs. But unfortunately he died before the additions undertaken were finished. The work of completing the unfinished portion with some additions and alterations to suit for the State offices has been started by the Nawab Sahib.

Rs. 18000 have been spent on the work this year. The work is in rapid progress under the direct supervision of the Nawab Sahib.

The work of the new Mahal main building is finished. The Nawab Sahib resides in the New Mahal which is situated out side the town on an elevated place. Police chowkies according to modern fashion are under construction in place of the old ones in more suitable places in the town. Special repairs to sum of the Masjids roads and current repairs to public buildings and wells were also undertaken during the year.

The total expenditure on public works was Rs. 49,820 against Rs. 47,488-2-3 last year.

Post and Telegraph Office.

37. There was no change in the number of post and telegraph offices in the State during the year, there being only one combined post and telegraph office at Savanur.

Betel pans are recently sent in mail bag as registered parcels for which postal stamps worth Rs. 100 to 200 every day were sold. The post and telegraph office at Savanur is rising in importance every day.

Abkari.

38. Appendix XXI shows the details as regards the number of Abkari shops and the revenue realized there from. The Abkari affairs in the state are continued to be looked after by the British Excise Department.

The decrease in the revenue is due to the less consumption of liqour during the year.

Mint.

There is no mint in the State.

General condition of the state and the people.

40. The state, as can be seen, is financially in sound position and its savings have been invested chiefly in War loans and Tagai loans and loans to the public and Khanjadas.

Its general condition is satisfactory.

This year also the season was not so very favourable to the rayats as rain though above the average was untimely and was not equally distributed.

The out-turn of jowari crop was damaged to some extent owing to the rain-fall at the time of reaping. Some lands in Malnad villages could not be sown on account of incessant and excess of rain during the sowing season. Some cereal-crops were destroyed by insects.

The rayats however did not find much difficulty in paying the assessment as the price of foodstuffs was abnormally high. The price of the pan leaves also went high during the year and the gardeners were well off.

There were no epidemics in the State villages except a few plague and influenza cases in Savanur and some small-pox cases at Shiddapur.

Public health was on the whole good.

The condition of agricultural stock was not satisfactory for want of sufficient fodder during the year. It will be seen from Appendix XX that there is a decrease in the number of agricultural and milch cattle.

There were no serious crimes during the year. As reported in my last report there are no public movements or serious party feeling in the State, as special care has been taken regarding them as per orders of the Nawab Sahib.

There was neither emigration nor immigration.

CHAPTER V.

Revenue and Finance.

41. The gross revenue for the year was Rs 1,63,075-5-4 against Rs. 1,26,920-11-6 of the last year.

The increase in receipts during the year was mainly due to the recovery in the year of suspended land revenue and also to the collection of land revenue in April and May which was due in February and March as postponed at the special request of the rayats.

The total investments of the State are as below :—

War bonds	Rs. 95,000—0—0
Debentures	„ 6,700—0—0
Loans to public	„ 1,22,606-10—0
Tagai	„ 7,393—5—4
	Total Rs. 2,31,699-15—4

The total expenditure was Rs. 1,50,889-9-10.

Appendix XXII gives other detailed information regarding the receipts and expenditure.

The year ended with a net closing balance of Rs. 2,52,315-2-6.

CHAPTER VI.

Vital statistics.

42. Appendix XXIV gives the number of births and deaths and their ratio per 1000 of population.

There was increase in the number of births and decrease in the number of deaths during the year.

A few cases of plague and influenza occured at Savanur and at one or two State villages. To prevent the spreading of these epedemics arrangements were made at the orders of the Nawab Sahib by which medical aid was within easy reach of all patients as could not go to the Dispensary. Preventive doses were freely given to the people by the compounders and the Sub-assistant Surgeon who were specially deputed to go round about in the town specially for the purpose every day. Anti-plague inoculation was done. Wells at Savanur and State villages were disinfected with permanganate of potash. These and other similar measures resulted in checking the prevalance as is apparent from a small number of plague and influenza cases reported during the year.

Appendix XXIII gives details regarding the working of the Dispensary.

The Sub-assistant Surgeon Mr. M. A. Bowdekar who was lent to the State reverted to the British service during the year and the present Sub-assistant Surgeon Mr. Kurlekar who is also qualified by having passed his L. R. C. P. was appointed in his place. The Political Agent during his visit to the Dispensary remarks regarding the working of the Dispensary as below :—

" Visited. Sub-assistant Surgeon Mr. V. G. Kurlekar who appears competent. The dispensary looks very clean and in order. The in-patient, a boy who is apparently being successfully treated for wounds by a bullock in the tender parts. A good average daily attendance of new out-patients. I am glad to see that a

vigourous inoculation campaign is being conducted. There is a little plague and some influenza in the town. One compounder is travelling dealing with malaria etc.–a good plan."

In order to afford medical relief even to people living in State villages far away from the State Dispensary, arrangements were made from December 1919 at the orders of the Nawab Sahib by which the Senior Compounder who has put in 26 years service in the Dispensary visited every month each and every inhabited village with a chest of ordinary medicines and treated patients suffering from Malaria and other ordinary diseases free without any distinction. It may be seen from the number of patients which was 1306 treated by him during 4 months *i. e.* December 1919 to March 31st, that the proper advantage was taken of, by the villagers. The extra expenditure on this account was Rs. 200 during the said 4 months. The total expenditure on the dispensary including the cost of medicines was Rs. 4424-2-1.

43. The following is a comparative table of vaccination performed by the State vaccinator during the year and the year previous.

Year.	No. of persons Inoculated	Successful.	Unsuccessful.	Unknown.
1918—1919	1134	1092	15	27
1919—1920	812	717	54	41

The work of the vaccinator was supervised by the British Sanitary Department. The vaccinator was duly punished twice during the year for his negligence at the request of the Deputy Sanitary Commissioner, Belgaum.

The total expenditure on vaccination was Rs. 425-14-0 during the year

44. The registration of vital statistics was done by the Police Patils as before.

CHAPTER VII.
EDUCATION.

45. Information regarding the school is given in Appendix XXV.

There were 17 Primary Schools and one High School in the State during the year and the cost incurred by the State on their account was as below.

Primary Schools	Rs.	5462	8	8
High School	„	5547	3	9
	Total Rs.	11,009	12	5

The fees realized were Rs. 2,503–12–6. The total number of pupils on roll on the 31st March 1920 in all the schools was 1112 as against 1195 last year. The decrease being small is due to some new schools being opened in the adjoining British villages. The boys of the neighbouring British villages who used to attend the State schools have since left them and joined the schools newly opened in their villages.

46. The percentage of pupils receiving education at these institutions to the entire population was 6·1 during the year.

The Savanur High School sent up 12 students for the school leaving examination during the year. Of these 4 came out successful in the examination. The good results are mainly due to the exertions of the Head Master and his staff. The High School is now fully equipped with the required science apparatus and an able staff. One of the teachers recently passed his B. A. Examination with honours.

47. The Political Agent inspected the High School and other primary schools at Savanur and was pleased with the progress made by each of them.

Every effort is made to encourage the backward class and Mohamedan boys to receive education. Ordinary and special scholarships, freeships are liberally granted for such boys.

Moslem scholarship fund has been started to help such poor boys attending the institutions.

There are 30 Mohamedan boys studying in the High School.

Competetive scholarships, freeships and half freeships were also granted for boys of all classes who were deserving. The number of pupils in the High School rose from 101 to 130.

Mr. Walli-Mahamdakhan Bakhtyar, son of the Nawab Sahib's paternal aunt, who received pecuniary help during his education throughout from the State passed his L. L. B. examination during the year.

The Nawab Sahib has ordered during the year for the grant of the State scholarship to the son of one of the compounders, Mr. Joshi for his college education in consideration of Mr. Joshi's long and useful services and also of his straitened circumstances.

Two students who have passed Vernacular School Final Examination have been sent up for training to the trainig college for men Dharwar with a grant of state scholarships to them. These students have promised to serve the state after their training is over. Arrangements are made to strengthen the efficiancy of the school staff.

The examinations of schools in Savanur was conducted by a committee consisting of the Divan and some educated gentlemen in the town and the village schools were examined by the Head master of the Kanarese boys' school at Savanur.

All the schools were located in state buildings which are in good condition.

It will be seen from the above that every sort of encouragement and facility is being provided for all classes of state subjects to educate their children.

CHAPTER VIII.

Miscellaneous.

48. There is only one printing press at Savanur which does only Vernacular job work.

49. No newspapers are published in the state.

50. The social club in Savanur worked well during the year. There were 67 subscribers. It is maintained partly by the subscription and partly by the interest realized on the funds subscribed for, by the public and deposited in the state treasury. The building with furniture belongs to the state.

The total income and expenditure on the club in the year under report amounted to Rs. 770 and 638 respectively.

The Times of India, the Bombay Chronicle and other English and Vernacular weekly magazines and newspapers were subscribed for during the year. No objectionable paper was allowed in the club. There is a lawn tennis court attached to the club, for the convenience of the members desiring to play at tennis. The Nawab Sahib is the president of the club. At the beginning of every year estimates of receipts and expenditure are drawn up and approved of by the president.

51. No expenditure was incurred by the state on account of the destruction of wild animals. Some were however, destroyed by the people in malnad villages.

52. The Nawab Sahib inspected the state records during the year and (B) papers due for destruction were destroyed.

53. The number of sardars remained the same as in last year.

54. The question of Inam settlement referred to in my last report is not yet finally settled. Some rules have been drafted for the sanction of the Nawab Sahib on the lines already sanctioned by the Government of Bombay for Inam settlement for Jata state. The question will be decided in due course.

55. Loans have been freely given by the state to several Khanjadas during the year at a low rate of interest with a view that they might carry on some business for their maintenance. It is hoped that they will take advantage of the facility afforded.

56. Some state lands have been leased on long tennure to sardar Mahaboob alli khan sahib Biradar Nawab on a distinct understanding that he should cultivate them by the improved methods as in the case of Agricultural farms started at the Dharwar District so as to set an example to the agriculturists of the state. He has introduced improved iron ploughs by which he reports to have been able to demonstrate to the agriculturists their advantages over ordinary wooden ploughs. The fact that from the time he introduced these improved iron ploughs, some of the agriculturists have also been using the iron ploughs, shows that the agriculturists have begun to realize the advantages of improved methods.

57. During the year Mr. Kristrao Kalghatgi retired Deputy Collector Dharwar was entrusted with auditing state accounts. Arrangements were also made by me to inspect the offices in the state.

58. Such is briefly the record of the various matters connected with the adminstration of the state.

I have the honour to be

Sir,

Your most obedient servant,

R. S. Kulkarni,

Divan of Savanur State.

ADMINISTRATION REPORT

OF THE

SAVANUR STATE.

FOR THE YEAR

1920-21.

(Official use only)

Printed by V. B. Jathar B. A., L L. B.

AT THE

KARNATAK PRINTING WORKS, DHARWAR.

134979

NO. 1188 OF 1921
HUZUR OFFICE, SAVANUR,
26th MAY 1921.

From,

Captain Nawab Abdul Majid Khan,
DELAIR JUNG BAHADUR
NAWAB OF SAVANUR.

To,

H. L. Painter Esquire, B. A., I. C. S.
POLITICAL AGENT,
DHARWAR.

MY FRIEND,

I have the honour to present the Annual Administration Report of the State for the year ending 31st March 1921.

2. The Diwan has dealt in detail with all the working of the different branches of Administration and I have very little to add to what has been mentioned in the main body of the Administration Report.

3. The rain-fall was much below the average but was more timely and in spite of the failure of the late rains the crops did not suffer much. There was not sufficient water supply for irrigated crops. On account of high prices realized for cotton and food grains during the last three years the condition of the Ryots is very satisfactory. The year under report has also not been unfavourable to them.

4. The working of the Police was as good as last year. I am on the look out for a reliable and capable man as head of the Police. I have personally discussed with you the question of the supply of the Martini Henry Rifles and am awaiting your personal inspection of the old muzzle loaders when you are in Savanur, which I hope will be in the near future.

5. It is a matter of regret that cotton business has gone down to such an extent. The State has advanced a large amount to Sardar M. A. Khan for the erection of a Ginning and Pressing Factory and I have advised him to pay more personal attention to his business, than what has been done during the last year or two. I am glad that Messrs Langley & Co, of Bombay have been able to start their business in Savanur. If we are fortunate enough to attract the attention of one or two big firms like Messrs Langley & Co, of Bombay I am sure the cotton business will flourish.

6. I cannot but express my feeling of deep gratitude to Government for having raised a member of my family *viz* Sardar Mahaboob-ali khan to the rank of a first class Sardar.

7. Savanur and its affairs are not unknown to you. During my minority you were kind enough to look after the Administration of this State for some time. The Administration of a State (though small) is not without its troubles and difficulties but every effort has been made to keep all the Departments up to the mark and every department has had a fair share of attention.

8. I am glad to be able to mention that Non-Co-operation and Khilafat movements have not been allowed to have a footing in the limits of the State and I hope and trust that as long as I am in Savanur no such movement will ever take place.

9. I had the honour of staying at Government House in Poona and take this opportunity of tendering my grateful thanks to Their Excellencies for their kindness and hospitality.

10. Before concluding I hope you will allow me to mention that it was with feelings of happiness that I heard you were coming back to this District and as my political Agent. Without the help of political officers the task of Native Chiefs is not by any manner an easy one and knowing as I do from the previous records, the trouble you took in looking after the interest of this state when you were in this District nearly ten years ago, it makes me feel sure that we have not only a political Agent who knows the state, but who is also the friend of the State.

Yours sincerely,

Sd/ **Abdual Majidkhan**

Captain,

Nawab of Savanur.

No. 523 of 1921.
Divan's Office, Savanur
Dated 26th April 1921.

From,

Ramarao Shrinivasrao Kulkarni, Esquire,
Divan of Savanur State.

To,

Cap. Meherban Nawab Abdul Majidkhan Sahib,
Delair Jung Bahadur,
Nawab of Savanur State.

Sir,

I have the honour to submit herewith the annual Administration Report of the Savanur State, with usual appendices for the year ending 31st March 1921.

CHAPTER I

General and Political.

2. The State comprises of 25 villages scattered over in the Talukas of Siggaon and Haveri, in the Dharwar District. The area of the State is 70 square miles and its population according to the census of 1911 is 1,7[illegible],909. The result of the census of March last is not yet finally declared. The gross revenue of the State on the average of the last five years, is Rs. 1,38,067.

3. The State does not pay any tribute to the British government or to any other State.

4. The full name and title of the Nawab Sahib are "Captain Meherban Nawab Abdul Majidkhan Sahib Farjand Nawab Abdul Tabrezkhan Sahib Delair Jung Bahadur, Nawab of Savanur." The Nawab Sahib is a first class sardar of the Deccan. The Nawab Sahib's family belongs to the Miyana tribe of Pathans. He continued to be Hon'y. Aide-de-camp to His Excellancy, the Governor of Bombay. The Nawab Sahib had the pleasure of attending several functions at Government House in his capacity as A. D. C. to His Excellancy the Governor of Bombay. In February last the Nawab Sahib went to Bombay and had the honour of paying his respects to His Royal Highness the Duke of Connaught both of His Royal Highness's arrival and departure, from Bombay.

5. The Nawab Sahib has two children. The eldest of whom is a daughter Meherban Sahanoor Jejan Begum; she is six years old. Meherban Abdul Hamidkhan Sahib who is now two years old is the son and heir to the Savanur Gadi. Meherban Begum Sahiba, the prince, the princess and the sisters of the Nawab Sahib continued to enjoy good health during the year.

6. At the invitation of the Nawab Sahib, the Hon'ble Mr. Cadell, Commissioner S. D., and Mr. A. E. L. Emanuel, Political Agent visited Savanur in January and were the honoured guests of the Nawab Sahib. A Darbar was inaugurated in honour of their arrival and the Nawab Sahib gave an address

welcoming the Commissioner and expressing thanks to the Political Agent who was about to leave India, for his kind and courteous treatment and valuable help rendered by him during his tenure of office as Political Agent.

7. There are, I am glad to report, no movements of any sort regarding the Khilafat and Non-Co-operation in the State limits. A few months ago one or two persons who tried to start the movement have been dealt with and the movement has thus been nipped in the bud and all future mischief has been stopped.

8. The Nawab Sahib, except for one or two months was in the State all the year round. Several villages were inspected by the Nawab Sahib in all details and I was ordered to undertake such improvements as were found or reported to be necessary. Agriculturists have been advised to apply for Tagai and sink wells in their lands with a view to convert their dry crop lands in garden lands which are most paying in Savanur. Orders have also been issued to improve the sanitation of the villages

CHAPTER II

Administration of Land.

9. I continued to do the Jamabandi. The total arable land was 44,662·6 acres as against 44,662·39 acres of last year. The decrease of 33 gunthas may be accounted for the same having been transferred from Tondur a State village to Kalsur a village in the Karajgi Taluka of the Dharwar District. The extent of unassessed land assigned free of assessment for public and other purposes is acres 3168·8. Land measuring 599 acres and 13 gunthas is set apart for public grazing and that measuring acres 1139·37 is set apart for forest. Thus the land available for cultivation was acres 39754·28 against acres 39755·12 of last year. The decrease of 24 gunthas is due to the transfer of 33 gunthas alluvial land during the year to the Dharwar District also 9 gunthas of uncultivable land (ditch at Savanur) which was given for cultivation during the year. Of the area available for cultivation, acres 382·7 of land were remaining cultivable waste land at the beginning of the year under report, and during the year acres 80.20 of land were thrown out of cultivation; hence the total area of waste land during the year was acres 462.29 of which the area of waste land brought under cultivation during the year is acres 116·8 against 40·4 acres in the preceding year. The cultivable waste land remaining at the end of the year is acres 346·19.

Of the waste land brought under cultivation during the year, land measuring acres 67·7 was given under concession rates. Most of the waste land now left is situated in malnad villages and is fallow since a long time. Major portion of it is hilly and rocky ground.

10. It having been found that lot of damage was done to the crops by wild pigs in malnad villages, which is reported to be one of the causes of the malnad land always going out of cultivation some Haran Shikaries have since been located in Mulkeri, a malnad village of the State. These tribes' men have killed a number of pigs. They were not only rewarded in a lump sum but for every pig killed they were given a reward.

11. The land revenue demand for the year amounted to Rs. 89335–1–8 out of which collection of Rs. 6287–5–1 remained as arrears at the end of the year. Since then almost all arrears have been collected.

The area of building sites sold during the year is 7,602 square feet and the occupancy price realised is Rs. 725–4–0 and the annual ground rent theron comes to Rs. 35–2–0. The total ground rent realised by the State during the year amounted to Rs. 1,181–9–0. The fluctuating miscellaneous revenue during the year amounted to Rs. 4,116–6–2

12. Seventy three notices and 12 forfeitures were resorted to against 280 notices and 2 forfeitures of the last year for the recovery of the arrears of land revenue. The malnad ryots were hard hit during the last 2 years and they were not able to pay their land reveuue and hence the increase in the number of forfeitures of land, but since then most of the land has been given out to cultivation.

13. There were no alienations and no boundary disputes during the year.

14. Rs. 1,250–0–0, and Rs. 582–0–0 were given as loan under the land Improvement Loans Act and the Agriculturists' Loans Act respectively during the year. The following table shows the demand and recovery of the loans under these Acts.

	Balance outstanding last year.	Due for recovery during the year.	Total recoverable	Recovered during the year.	Balance,
Land Improvement Loans Act. ...	28-11-9	1498-10-10	1527-6-7	1414-14- 7	112- 8- 0
Agricultrists' Loans Act. ..	...	1068- 2- 2	1068-2-2	995- 0- 2	73- 2- 0
Total ..	28-11-9	2566-13- 0	2595-8-9	2409-14- 9	185-10- 0

Inam Settlement.

15. The cultivable area of 39,754–28 acres includes Inam lands measuring acres 13,824.10 assessed at Rs. 38,980–7–0 which again include Dist. Hereditary Watan, Patil Kulkarniki Watan and Talwarki Watan lands measuring acres 9,411.3 and assessed at Rs. 25,707–3–6. The remainig portion of the Inam land measuring acres 4,413.7 and assessed at Rs. 13,273–3–6. consists of Devasthan, personal and village with Huzur service Inam and was to be adjudicated during the year.

The question of settlement of these Inams was raised as long ago as 1871 during the minority of the then Nawab by Mr. E. P. Robertson who after a deal of trouble (as is evident from his report) classified the different Inams and submitted his proposals to Government for their approval and sanction. The State was under minority and it appears that the Government were not inclined to approve of all the proposals of Mr Robertson but they specified the class of Inams and orderd that (*a*) rent free tenures for the enjoyment of which the holders have no proper authority (*b*) alianations to relations and friends whose support is no longer incumbent on the State and (*c*) Personal Inams to servants and others by the late Nawab Abdul Kheirkhan Sahib should no longer be allowed. Since these orders were received some of the above class of Inams were enquired into but a great number of them remained as they were. The question of settlement of Inams was again taken up in 1904 by Mr. M. C. Gibb the then Political Agent and after a

deal of correspondence, it was settled that the rules sanctioned by the Government of Bombay for the settlement of Inams in Jat State should be made applicable to Savanur. Accordingly the rules of the Jat state were sent to the Divan and in spite of the repeated reminders from the political Agent and the Assistant Political Agents, I regret to have to say that nothing practical was done by the then Divan for the settlement of these Inams.

The Government were pleased to instal the present Nawab Sahib on the "Gadi" in 1912. The question of the settlement of the Inams was again discussed but no definite orders were received till 1917. During the last 2 years the Inam Commission Act XI of 1852, Summary settlement Act VII of 1863 and Bombay Act II of 1863 have been made applicable to the State. Rules for my guidance have been drawn up taking into consideration the proposals of Mr. Robertson, the orders received from Government with regard to those proposals and the scheme sanctioned by Government for the settlement of Inams in the Jat State. The Particulars of Inam lands adjudicated during the year are as shown in the subjoined table.

Class of Inams.	Area resumed acres.	Assessment on the resumed area.	Area adjudicated on payment of quit rent.	Judi levied on adjudicated lands.	Total Amount
Personal	146-34	498-9-0	462-33	642-14-0	1141- 7-0
Devasthan	..	..	296-35	402-14-0	402-14-0
Total ..	146-34	498-9-0	758-28	1045-12-0	1544- 5-0

CHAPTER III

Protection and Legislation.

16. Appendix II will furnish the list of laws and regulations in force in the State. The Bombay Village Sanitation Act I of 1889 and Bombay Census Act IV of 1920, Bombay Land Revenue Exemption Act II of 1863 and section 61 A of District Police Act IV of 1890 were introduced in the State during the year.

Indian Post Office Act VI of 1898 and Indian Telegraph Act XIII of 1885 which were introduced during the year 1918 have been added to the list.

Military Force.

17. There is no military force in the state.

Police.

18. From appendix III which gives details as regards strength, cost, rewards and punishments of the police, it will be seen that the strength of the police force remained the same as last year.

The State has not been able to get the service of a competent Sub-Inspector as yet. The present incumbent Mr. Keshav Khando, Jamadar I grade acted as Sub-Inspector during the year. It is hoped that a really competent man will soon be appointed.

The pay of the Havaldars has been raised from Rs. 15 to Rs. 20 per month. The police men were payed grain compensation. They were also supplied with jowari at cost price. The jowari was purchased and stocked by the State during the harvest when the prices were comparatively cheaper. Every effort is made to encourage the police to work efficiently. Free education and scholarships are given to the children of the police. Loans on easy terms have been advanced to the extent of Rs 1,320. The police force is armed with 20 muskets out of which 14 are old muzzle loaders and 6 are Martini Henry smooth bore rifles. I again beg to bring to your kind notice the remarks I had to make in para 13 of last year's Adminstration Report regarding the muzzle loader muskets. As long ago as in 1913 the District Superintendent of police Dharwar considered the Muzzle loaders unfit and dangerous to be used

There were no serious crimes during the year. Appendices V,VI and VII will furnish all particulars regarding the working of the police. There is a decrease in the number of crimes. Though the percentage of convictions was less than last year the percentage of the recovery of stolen property is better than last year.

Four persons were prosecuted by the police under Chapter VIII Criminal Procedure code. They were all bound over to furnish security for good behaviour. The police controlled the movements of criminal classes well under the Criminal Tribes' Act; nine persons were prosecuted and all were convicted.

Four persons under Bombay Gambling Act were prosecuted and all were convicted.

Previous convictions of under-trial prisoners and their antecedants were traced by means of finger tip impressions taken and sent to the Bureaus in the Bombay and the Madras presidencies

A class for the instruction of the police men is held regularly to coach them in police catechism and other practical work. The drill and discipline of the force is attended to. Orderly rooms are regularly held. Fifteen men were rewarded by money, fifteen by promotion for their good work in the detection of crimes and fourteen men were punished departmentally by fine, suspension and warning.

Musketry practice was held thrice during the year. The ratio of police to population is one police for a population of 365 souls and 1·4 square miles respectively.

19. Property worth Rs. 2,909 was destroyed accidentally by fire as against Rs. 200 of last year. There were two suicides against none and two accidental deaths against seven of last year. There was no change in the number of stipendiary and watandar police patils during the year; four patils were warned, two were fined and one was suspended. One patil was awarded with a gold ring for good work.

Criminal Justice.

20. The Nawab Sahib was the Sessions Judge, the Divan exercised the powers of a District Magistrate. The Subordinate Judge F. C. those of a First class Magistrate and the Head Karkun those of Third class Magistrate.

Appeals from the court of the IIIrd class Magistrate are heard by the District Magistrate and those from the Ist class and the District Magistrate by the Nawab Sahib as the Sessions Judge.

Appendix VIII gives details of cases heard and disposed of by all the courts during the year. 137 persons including 2 of the previous year were tried by the Magistrates of whom 80 persons were convicted against 161 and 71 respectively of last year. Only one accused remained pending trial at the end of the year. The percentage of convictions was 58·4 against 44·1 of last year.

21. Three appeals were preferred to the court of the Nawab Sahib as Sessions Judge, one against the judgement of the District Magistrate and 2 against that of the Ist class Magistrate. Sentence passed by the District Magistrate together with that of the First class Magistrate in one case was modified and the other appeal against the judgment of the Ist class Magistrate was rejected. Appendix IX gives other details. A revision application through the District Magistrate was preferred under section 439 Cr. P. Code to the court of the Nawab Sahib for enhancement of sentence passed by the First Class Magistrate. The Nawab Sahib thought it fit to enhance the sentence.

Permission to file an appeal under section 419 Cr. P. Code against the order of acquital by the First class Magistrate is applied for, to the District Magistrate. The application remained pending before me at the end of the year.

Civil Justice.

21. The number of civil courts remained the same as last year. The Nawab Sahib exercised the powers of a High court. I exercised the powers of a District Court and Mr. Mudvedkar B. A. those of a First class subordinate Judge.

Appendics X and XI give details regarding the original suits and applications for execution of decrees disposed of during the year.

The average duration of suits and application for execution of decrees was 5 months and 12 days and 6 months 18 days against 3 months and 16 days and 5 months and 8 days respectively of last year. 78 percent of suits and 69 percent of applications were disposed of during the year against 75 and 59 respectively of last year.

22. Appendix XII gives details regarding the appeals admitted and disposed of by the District Court and the High Court. The appeals were disposed of more promptly than last year.

23. Three applications under Act VIII of 1827, two under the Guardian Wards Act VIII of 1890 and one under the Succession Certificate Act VII of 1889 were heard and disposed of, by me against 2 and 3 under the first two acts last year.

In my capacity as Diwan I exercised the powers under the Mamltdars' Courts Act and disposed of three cases against one of last year. Under sections 86 and 87 of Land Revenue code, I decided 25 cases against the same number last year. One case remained pending at the end of the year. I decided 90 heirship inquiry cases against 146 of last year.

Extradition.

24. As usual processes of all kinds Civil, Revenue, and Criminal continued to be served reciprocally by the British courts and the other native States on the one hand and Savanur State on the other. The execution of decrees of the courts of

this State in British territory without a suit being filed for the purpose and vice-versa is awaiting the sanction of Government.

Prison.

There is a prison with a lock-up at Savanur. Appendix XIII gives all details. The daily average was 5·8 as against 2.94 of last year. The cost of the jail during the year was Rs. 882–12–11 against Rs 663–12–10 of last year. The total cost of dietry charges per head per day was Rs. 0-3–2. against Rs. 0–4–1 of last year. The Jail Committee held its meetings regularly. The conduct and health of the prisoners was good. There was no casualty among them. A suitable building with a kitchen has been built at a cost of about Rs. 4000–0–0 during the year.

Registration.

26. Appendix XIV furnishes details of documents registered together with their value and appendix XV the fees realised together with the expenditure I was the District Registrar and the Head Karknn, the Sub-Registrar.

Municipality.

27. There is only one Municipality and that for the town of Savanur. It consists of 8 nominated and four elected councillors. The Nawab Sahib, the Divan and the Sub-Judge are the ex-officio President, Vice-president and Chairman respectively. The Municipal committee reconstituted during the year as the triennial election and nomination were due.

The Municipality held four quarterly general meetings and one special general meeting. The average attendance was 8·2 and 9 respectively.

28. The year opened with a balance of Rs. 16,547–14–2 and closed with a balance of Rs. 12,600–0–0. The actual receipts and the expenditure dnring the year were Rs. 10,317–11–5 and Rs. 14,265–9–4 against Rs. 13,940–9–9 and Rs. 8,469–0–3 respectively of last year The increase in the expenditure is due to the purchase of a building by the Municipality. The building has been rented to the Postal department and brings in a decent and permanant income to the Municipality. The increase in the expenditure is also partly due to the temporary and special establishment that was maintained to improve the sanitary condition of the town. A few roads were widened and many ditches where water used to stagnate during the rains have been filled up. The mutton market is nearing completion. All Municipal buildings are in a very good condition.

29. The Medical officer and the senior compounder looked after the sanitary arrangements of the town. They took rounds twice a week and not only looked after the cleanliness of the town but treated the sick who were unable to go to the dispensary for treatment. The Medical officer received a small allowance for this work from the Municipality. Rat traps were ordered and from November to the end of March 1921 over 4,000 rats were destroyed. Rs. 220 were spent on this account. Inocualtion was done and houses disinfected in the streets where prevalance of plague was apprehended. Quinine was freely distributed. All drinking water wells were disinfected several times during the year. I am glad to report that Savanur was quite free from any sort of epedemic during the year.

30. The Municipality incurred an expenditure of Rs. 60 on account of the census work.

Wards' Estates.

31. There were six minors and five estates of the minors under the control and management of the Dewan. The health and the education of the minors was attended to. Their finances are as shown below :—

Opening balance	5969–6—9
Receipts	4852–7–11
Total.	10,821–14–8

Expenditure was Rs. 767–5–0 and closing balance was Rs. 10,054–9–8. The balance has been invested in Government securities and advanced as loans yielding interest. The area of the land of the minors under the managemenr of the Dewan is acres 217.

CHAPTER IV.

Production, Distribution, Weather and Crops.

32. The rainfall was far below the average It was 19·8 inches the average being 25·54 inches. The rains in September and October failed and the result was that the late crops suffered to some extent. The crops in the maland villages were better than last year. The anna valuation of crops is as shown below:—

Crops	Anna	Valuation.
	1919–20	1920–21
Jawari	0–12–0	0–10–0
Cotton	0—8–0	0—8–0
Wheat	0—4–0	0—4–0
Cream	0—4–0	0—4–0
Tur	0—2–0	0—4–0
Kulthi	0—6–0	0—6–0

The season was slightly favourable than last year.

Wages, labour and prices of food grains.

33. Appendix XVIII furnishes the prices of food grains and cotton. There was a slight fall in the prices of food grains.

34. There was plenty of demand for labour. Wages for unskilled labour were 8 to 10 annas for men and 5 to 6 annas for women and 4 annas for children. During the cotton picking season the wages were even higher than these. Skilled labour could not be had for less than a rupee a day.

Forest.

35. There is only one forest at Mulkeri. The area of the forest is 1139 acres and 37 gunths. The contract of clear cutting has been given to Sardar Mahabooballikhan for Rs. 15,000 on condition that the wood in the forest should be cut and removed within ten years and that he should pay the amount in ten instalments. About fifteen thousand teak wood plants were planted in the portion in which clear cutting was done during the year.

The total receipts from the forest including grazing fees was Rs 1,686–2–0. More income was realized last year on account of the sale of sandal wood trees. I was in charge of the forest during the year.

Trade and Manufacture.

36. The chief exports of the State are Jawori, cotton, pan leaves, and butter and imports consist of groceries, cloth and other necessaries of life.

There is a ginning factory with 29 double roller gins and one saw gin. There is also a pressing factory which is capable of pressing 400 gross lbs. During the year 997 nags of cotton were ginned and 838 bales were pressed. The cotton business was very poor compared to last year. There were 6 commission agents. The Nawab Sahib was in communication with several firms in Bombay and has been able to get Messrs Langley and Co. to start business in Savanur.

37. The business in pan leaves was carried on a large scale. The price of pans rose abnormally high and Savanur gardeners took full advantage of it. About 1,65,300 rupees worth of pan was exported from Savanur to distant places.

Manufactures.

38. Sadis, cholis and country blankets are the chief manufactures of the State. The weavers in Savanur weave the same sort of cloth as in Gadag-Betgeri of the Dharwar District for which there is good demand in the market. The condition of the weavers is very poor and with a view to save them the middleman's profit, the State about a couple yeass ago purchased silk and yarn direct from Bombay and issued it out to the weavers at cost price. The price of silk and yarn is very fluctuating and the number of weavers in Savanur is small. The State cannot deal with wholesale dealers in Bombay and hold a large stock without running a certain amount of risk in case the prices come down unless the weavers agree to purchase at cost price whatever the market rate may be but such an arrangement will frustrate the object with which the scheme was started and therefore the Nawab Sahib is thinking of winding up the present seheme. During the year the State advanced about 6000 worth of silk and yarn to the weavers.

Public Works Department.

39. Appendix XIX furnishes all details regarding public works. Now the State is well-equipped with public buildings and offices. Irrigation works are receiving the attention of the Nawab Sahib. As mentioned in last year's Administration report, the the work of completing the work of Old Mahal with some additions and alterations to suit the location of State offices was completed during the year. This is an ancestral building of the Nawab Sahib's family and is now serving a very useful purpose. The opening ceremony was held on the birth day of the Nawab Sahib and all the offices are now located in the building. The alteration and repairs cost about Rs. 33000.

All the State buildings are in good condition.

Post and telegraph office.

40. There is one combined post and telegraph office The State has provided a suitable and pucca building at a cost of six thousand rupees this year.

Abkari.

41. The total revenue realised was rupees 22,907–11–11 as against Rs. 24,439–7–0 last year. The Abkari management except of opium is looked after by the British Excise Department. The decrease in the revenue was due to less consumption of liquor.

Appendix XXI furnishes other details regarding the Abkari Department.

Mint.

42. There is no mint in the State.

General condition of the State and the people.

43. The State is financially in a sound position. Inspite of the heavy expenditure on public works, the expenditure did not exceed the income.

44. The bulk of the population is agriculturists and their general and economic condition was favourable. On account of timely and early rains, the jawori and paddy crops were as good and in some places better than last year. The out turn of the cotton crop was the same as last year. The season was more or less the same as last year. Though there was a slight fall in the prices of food grains still jowari and paddy were sold at much higher prices than in a normal year. The price of a goni of pan leaves for a normal year is Rs. 60 the price during the year went upto as much as Rs. 250 for a few months. These high prices were very beneficial to the gardeners.

45. There was no epedimic in the State.

46. The condition of cattle was also good.

47. There was good and continuous demand for labour, at reasonable wages.

CHAPTER V.

48. Appendix XXII furnishes details in a comparative form regarding the income and expenditure of the last two years. The gross revenue of the year under report was Rs. 1,80,705-6-1 against Rs. 1,63,075-6-1 last year. The increase is due to the sale of 1921 war bonds and on account of the sale of some State buildings. The total expenditure was Rs. 1,49,986-4-5 as against Rs. 1,50,889-10-9 last year.

The investments of the State are as under :—

(*a*) War-bonds	Rs.	80,900-0-0
(*b*) Debentures	„	6700-0-0
(*c*) Loans to public	„	1,32,782-4-1
(*d*) Tagai	„	7,168-0-0
	TOTAL Rs.	2,27,550-4-1

The year ended with a net closing balance of Rs. 2,65,534-4-2 against Rs. 2,52,315-2-6 last year.

CHAPTER VI.

Vital statistics.

49. Appendix XXIV furnishes details regarding the birth and deaths registers durings the year.

Medical relief.

50. Appendix XXIII gives details regarding the working of the dispensary. 8,132 out-door and 17 indoor patients were treated during the year against 8,236 and 12 respectively of last year. The daily average was 80·6 against 60·9 of last year.

There was sufficient supply of drugs. The dispensary was furnished with the required number of medical books and instruments. The medical officer performed 216 operations. Arrangements were made to distribute quinine freely in the town during malarial season. Anti-Plague inoculation was done and 1778 persons were inoculated. The Sub-Assistant surgeon visited 5 villages when rat fall was reported from those villages. He inoculated the villagers in 3 of the villages. Plague did not break out in the other two villages.

51. The travelling dispensary started in 1919 worked well. The compounder in charge of it visited each village 4 times on average. The number of patients treated by him was 1224. All drinking water wells were disinfected by the compounder Rs. 300 were spent on medicines for the travelling dispensary.

52. The decrease in the expenditure under this head is due to the bill of the medicines purchased, not having been received from the Government stores.

Sanitation.

53. During the year Bombay Village Sanitation Act was made applicable to the State. Sanitary committees were appointed in the villages of Shiddapur, Kabanur and Tondur. In these villages roads were constructed, gutters excavated and drainge improved. Prickly Pear in and about the villages was removed.

Vaccination.

54. The following is a comparatlve table of the vaccination performed during the year.

Year	Number of vaccinated	Successful	Unsuccessful	Unknown
1919—20	812	717	54	41
1920—21	891	736	39	116

The work of the vaceinator was supervised by the British Sanitary Department.

The total expenditure on vaccination was Rs. 40–8–0 as against Rs. 425–14–0 last year.

55. The registration of vital statatistics was done by the police patils.

CHAPTER VII.

Education.

There were 16 primary and one High school during the year. The expenditure on account of education was as follows :—

School	1919—20	1920—21
Primary schools	Rs. 5,462-8-8	Rs. 5,462–7–11
High school	Rs. 5,547–3–9	Rs. 5,733–6– 9

The fees realised were Rs. 3,568–15–0 against Rs. 3,503 last year the total number of pupils in primary schools was 1,045 against 995 and in the High school

the number was 123 against 119 of last year. The High School sent up 22 students for the School Leaving Examination, one of them is a mohmadan. The result of the examination is not yet out. Last year 40 percent of the boys sent for the examination were successful. From these results the High school stood first in the Dharwar District. Two boys of the High school distinguished themselves in the District sports held at Dharwar under the presidentship of the Sessions Judge Mr. Water filed. One of them was given a gold medal for high jumping.

A Lingayat Hostel has recently been opened for moffussil students. Three students have been sent up for elementary Drawing Examination but the result is not yet out. There were 26 Mohmadan boys attending the High school. Many of the Mohmadan boys are admitted free and given scholarships.

57. The two boys have been sent for education to the Government Arts college at Dharwar at the expense of the State on condition that they should come back and serve the State and pay back the amount spent on account of their education.

One student is undergoing training at the Male Training College on the above conditions.

58. The annual examination of the High school was held. The percentage of successful candidates is 34·2. The social gathering of the past and present students of the High school was held during the year.

59. The annual examination of all primery schools was held and the results are as follows:—

No. of schools	No. appeared	No. of successful boys.
16	603	380

The percentage of pupils receiving education to the entire population is 6·5. as against 6·1 of last year.

CHAPTER VIII.

Miscellaneous.

60 There is a printing press at Savanur but it does not do any important work No newspapers are published in the State.

61. There were 67 subscribers to the Social club. The income of the club was Rs. 776 and the expenditure was Rs 675–0 7. Papers which are prohibitted are not ordered by the Club.

62. The expenditure incurred by the State on account of destruction of wild animals was Rs. 24–8–0.

63. Including the Nawab sahib there were five sardars in the State. It is gratifing to note that the Government were pleased to promote Sardar Mahabooallikhan to the rank of a First class sardarship for rank and precedence on the recommendation of the Nawab sahib.

64. Attempts have been made to improve the methods of agriculture.

Iron ploughs have been sold to the rayots on easy terms State land measuring 355 acres and 4 gunthas have been leased to Sardar Mahabooballikhan on condition that he should introduce the improved implements of agriculture and demonstrate to the rayots the benefits of using better impliments and measure and mannure.

65. In conclusion I beg to tender my respectfull thanks to you for your kind instructions in the discharge of my multifarious duties as Dewan of your State. I pray that may derive this State as loyally as I have done in the past It would not be out of place here to mention the loyal support of the Heads of the departments and my subordinates that I have received in carrying out your orders for the better management of this State.

I have the honour to be

SIR

Your most obedient servant,

R. S. Kulkarni

Divan of Savanur State.

Savanur,

Dated 26th April 1921.
